

# A lifetime experience!

## Volunteer for nature, Help biodiversity

For over 30 years, ARCHELON, The Sea Turtle Protection Society of Greece, has been conducting conservation projects on all major loggerhead nesting areas in Greece.

You can become a volunteer if:

- you are over 18 years of age
- you have minimum 4 weeks available (6 weeks participation is recommended)
- you can communicate in English
- you are prepared for physically demanding work
- you can endure basic living conditions

You will acquire fieldwork experience and enjoy interacting with volunteers from all over the world who come together to work for nature conservation.

### **In the field projects of Zakynthos, Peloponnese, Crete and Amvrakikos Bay (May to October)**

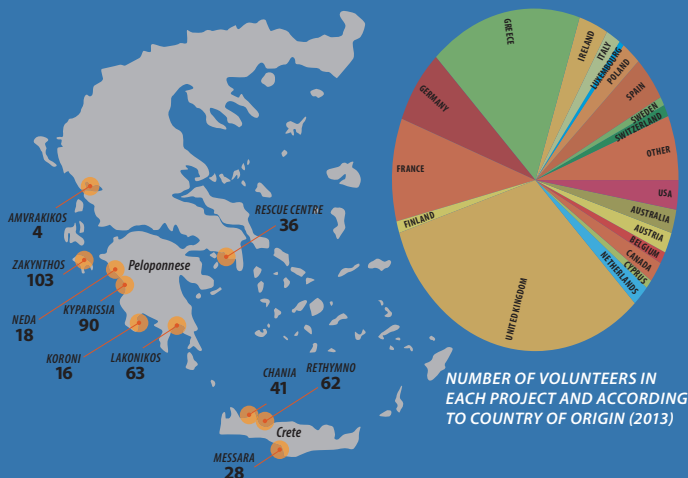

Volunteers stay at open-air research stations and get involved in fieldwork, public awareness and equipment/facilities maintenance.

### **All year round at ARCHELON's Sea Turtle Rescue Center in Glyfada (Athens)**

Volunteers get involved with sea turtle rehabilitation, public awareness and facilities maintenance. Basic accommodation is provided at the Center.

Volunteers cover their own travel and food costs, as well as other personal expenses.

Research opportunities are available for undergraduate and postgraduate students.
