# Invasions from Inner Space: SPECIES INVASIONS AND EXTINCTION

DR. TOM STOHLGREN, Senior Scientist, Natural Resource Ecology Laboratory, Colorado State University

**TOM STOHLGREN**, PhD, is a leading authority in the field of biological invasions. Senior Scientist at Colorado State University and Director of the National Institute of Invasive Species, he holds numerous recognitions including several Partners in Conservation Awards and the Meritorious Service Award. Recently Dr. Stohlgren received the top honour in his field: Resident Distinguished Ecologist.

Invasive species may be the number one environmental threat of the 21st century. **Invasions from Inner Space: Species Invasions and Extinctions** will examine creepy stories of biological invasions in your back yard from Asian carp to the emerald ash borer, zebra mussels and giant hogweed.

With his signature presentation style mixing mediums and humour, Dr. Stohlgren engages

#### WHEN

Thursday, March 12,  
2015  
5:30 p.m.

#### WHERE

University of Waterloo  
Hagey Hall

Humanities Theatre

audiences of all ages sharing his globally-recognized expertise in biological invasions. Explore the link of current extinction and invasion patterns around the globe as a result of population expansion and loss of biodiversity.

**This is an all-ages event. Everyone welcome!**
