

SOIL HEALTH INTERPRETIVE CENTRE OPEN HOUSE

November 3rd 2016 from 10 am - 12 pm

Elora Research Station, 7452 Sideroad 10, Pilkington Twp.

The University of Guelph's School of Environmental Sciences, in partnership with the Ontario Soil and Crop Improvement Association, would like to invite interested individuals to the opening of the Soil Health Interpretive Centre. This Ontario Ministry of Agriculture, Food and Rural Affairs' Knowledge Transfer and Technology Project will showcase the completed 2 million lysimeter infrastructure (Canadian Foundation of Innovation and Ontario Ministry of Research, Innovation and Science funded), and other displays regarding soil health and ecosystem services research.
